VIRTUAL EXPERIENTIAL LEARNING

VIRTUAL EXPERIENTIAL LEARNING (FORMERLY EDVENTURES) TRAVEL VIDEOS

are a new way to enjoy our trips, without the bumpy van ride, in the comfort of your own home.
Join Chris and Rita Wuehrmann for any or all these seven Experiential Learning Videos.

Video ID #ONL1 • Duff Springs • \$15

Alexander Duff came to Arizona Territory in 1879, as a trapper, prospector, and market hunter, married to a Shoshone Indian woman. He left the territory in 1906 as a respected hotel and mercantile owner. Duff homesteaded at a beautiful spot on the Verde River, overlooked by a centuries-old cliff dwelling, where a crystal-clear spring bears his name. Join this exploration of Duff's story and of some of the history and natural features.

Video ID #ONL2 • Johnson Canyon • \$20

When the Santa Fe Railroad was constructing their line across northern Arizona in the early 1880s, they overcame many physical obstacles in the rugged landscapes they traversed. One of the more difficult was the steep drop westwards off the Coconino Plateau, between Williams and Ash Fork. Our explorations will include some strange and interesting natural features, and the story of rancher and homesteader George Johnson, after whom the canyon is named.

Video ID #ONL3 • Northern Bradshaws • \$20

In 1863, during the height of the Civil War, several parties of intrepid prospectors discovered gold in the flanks of what became known as the Bradshaw Mountains. While the Walker party was most notable, the range was named for William Bradshaw, who died under mysterious circumstances in December 1864. We will explore the northern part of the range, which overlooks Prescott, visiting old mine sites, ghost communities, homesteads, and the historic Palace Station, established by the Spence family in 1875.

Video ID #ONL4 • The Moqui Stage Road to Grand Canyon • \$25

In 1903, two young girls traveled to the Grand Canyon with their families. They rode from Flagstaff to the Canyon by stagecoach, stayed in the historic, long extinct Grand View Hotel and took a 3-day trip by burro into the Canyon with Captain John Hance, the Canyon's first tour operator and renowned storyteller. Chris Wuehrmann re-creates their journey to the Canyon via the route of the Moqui Stage. We will hear about their histories as miners and tour operators in the Grandview Point area, and little-known histories of other Northern Arizona pioneers and places.

Video ID #ONL5 • Prospectors, Miners, and the Impossible Railroad in the Southern Bradshaw Mountains • \$25

In 1863, during the height of the Civil War, several parties of prospectors discovered gold in what became known as the Bradshaw Mountains. We'll explore the southern part of the range, visiting desert communities like Cleator, Bumblebee, and the mountain town of Crown King. We will talk about the original Yavapai Indian inhabitants, the challenges of passage via rail, and some history of mining in the rugged and forbidding landscape of the Southern Bradshaws.

Video ID #ONL6 • Exploring Date Creek: Native Peoples and Territorial Forts to Modern Ranchers \$25

Date Creek flows from the crest of the Weaver Mountains above Yarnell west into a vast desert plain, studded with rugged mountain ridges, finally joining the Santa Maria River above Alamo Lake. Originally home to the Yavapai People, Date Creek's first Anglo visitors were led by Charles Genung in 1863, who upon seeing one of the creek's green valleys declared it to be the Garden of Eden. Near this spot the military post of Camp Date Creek operated from 1867-1874. We will explore this little-known landscape, seeing ancient rock art, viewing the ruins of Camp Date Creek, and visiting with modern ranchers.

Video ID #ONL7 • The Land Between the Canyons \$25

Leading southwards into Verde Valley are two spectacular red rock canyons. To the east, well-known Oak Creek Canyon is followed by highway, although the west flanks are wilderness area. To the west, lightly visited Sycamore Canyon is entirely a wilderness area. Between the lower ends of these canyons is more wilderness area offering utterly amazing views, exotic volcanic features, and steep and wild canyons. Enjoy exploring this wild country and rugged back roads. We'll talk about geology, natural history, forest management and logging railroads. We'll also talk about the handful of early pioneers who braved this remote wilderness; and the historic logging railroads that once traversed the area.
